PROFESSIONAL SUMMARY

Computer Science undergraduate with a 9.1 CGPA and two industry internships. Strong foundation in core computer science subjects including Data Structures and Algorithms and Object-Oriented Programming. Experienced in Python-based data analysis, SQL, Excel, and Power BI, with academic and project-level exposure to machine learning concepts and web development. Actively seeking internship opportunities to apply these skills in real-world, impact-driven environments.

TECHNICAL SKILLS

Programming Languages:	Python, C, C++, HTML, CSS, JavaScript
Frameworks/Libraries:	Pandas, NumPy, Matplotlib, Node, React, Django,
Tools and Platforms:	Microsoft Excel, Microsoft Word, Power BI, Git, Google Colab, VS Code
Databases:	Oracle SQL, MySQL, MongoDB
Core Competencies:	Data Structures and Algorithms(DSA), Object-Oriented Programming(OOPs), Machine Learning, Data Analytics, Web Development

PROFESSIONAL EXPERIENCE

Finalyca | Python Developer and Analyst Intern

Mumbai, India | June 2025 - July 2025

- Underwent hands-on training to understand real-world corporate workflows, team collaboration, and workplace protocols and dynamics.
- Engineered automated data transformation pipelines, converting unstructured Excel files into clean, analysis-ready formats with minimal manual intervention.
- Developed a robust smart Excel parser at a dynamic startup using Python and the Pandas framework to automate complex data extraction and processing tasks.
- Implemented comprehensive error handling and data validation mechanisms to ensure reliability and integrity across diverse datasets.

Miso | Frontend Developer Intern

Remote | July 2024 - September 2024

- Spearheaded the development of responsive web interfaces at a fast-paced startup, leveraging modern frontend technologies and industry best practices.
- Integrated Firebase for seamless real-time data synchronization and secure user authentication workflows.
- Engineered scalable and maintainable design systems using Tailwind CSS for consistent UI/UX across the application.
- Collaborated closely with cross-functional teams, ensuring timely delivery of high-quality web solutions aligned with business goals.

PROJECTS AND OPEN-SOURCE

CredVeda - Real-Time Explainable Credit Intelligence Platform | GitHub

- Machine learning model that predicts borrower creditworthiness using financial and behavioral data.
- Applied preprocessing, feature selection, and training of models using Logistic Regression, Random Forest, and Neural Network.
- Designed an intuitive Flask dashboard with integrated chatbot for personalized financial guidance.
- Helps borrowers assess the credit score and trustworthiness of other companies or individuals before lending.

STEM QUEST - Gamified Learning Platform for Rural Education | GitHub | Demo

- Gamified web platform designed to make STEM learning engaging and accessible for rural students in Grades 6 through 12.
- Integrated AI-driven adaptive learning using Fuzzy Logic and Neural Networks to evaluate understanding and recommend next topics.
- Implemented interactive quiz modules and progress tracking through engaging game formats that motivate students to play repeatedly, fostering curiosity and sustained interest in learning.

AIDCHAIN - Blockchain-based AI Data Marketplace | GitHub

- Designed a decentralized platform leveraging blockchain to enable secure, transparent exchange of AI training datasets and models.
- Integrated smart contracts to automate licensing, usage tracking and royalty payments for data contributors and consumers.
- Combined AI approach using Adversarial Search and Neural Network frameworks to validate dataset integrity and detect anomalous submissions.
- Enabled peer-to-peer marketplace architecture with audit-trail capabilities to enhance trust and data provenance.

EDUCATION

Manipal University Jaipur

Bachelor of Technology in Computer Science and Engineering
CGPA: 9.1

Jaipur, India
August 2023 - May 2027

KC College

Science Junior College

Mumbai, India
2021 - 2023

Gopi Birla Memorial School

Primary Schooling
Percentage: 94.6 %

Mumbai, India
Graduated 2021

CERTIFICATIONS

- Software Development Intern Role Certification - **HackerRank**
- Data Structures and Algorithms in C/C++ - **Pregrad**
- Advanced Data Structures and Algorithms - **CodeChef**
- Design and Analysis of Algorithms Certification - **NPTEL**
- Solutions Architecture Job Simulation - **Amazon AWS**
- Data Analytics Job Simulation - **Deloitte**
- Software Engineering Job Simulation - **JP Morgan**
- GO Language - Intermediate - **HackerRank**

HONORS AND AWARDS

- Achieved Dean's List recognition for maintaining a GPA above 9.0 for four semesters, showcasing consistent academic excellence.
- Awarded Certificate of Excellence for outstanding performance during internship at Finalyca.
- Active member of ACM Club, responsible for organizing, managing, and hosting various campus events and student activities.
- 2X hackathon winner and selected for nationwide Smart India Hackathon 2025
- Awarded and paid for a buddy mentorship program for teaching core subjects to students
